Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 September 2003.
- 2a) ☐ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2, 4, 6, 9-13, 15-20, 22, 23, 26, and 55, drawn to a method of treating a condition associated with the excess accumulation of extracellular matrix via the administration of a first agent that inhibits TGFbeta associated accumulation of extracellular matrix and a second agent that degrades extracellular matrix.

Group II, claim(s) 32-34, drawn to a method of treating or preventing a condition associated with excess TGF beta associated accumulation of extracellular matrix via the administration of a combination of at least two agents that inhibit accumulation of TGFbeta associated extracellular matrix which combination inhibits TGF beta associated extracellular accumulation in greater amounts than either agent alone.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The reasons are the same as set forth in the restriction mailed 2/6/03. These two groups correspond to the groups I and II of the original restriction requirement. It is noted that these original groups were combined in the Official Action mailed 6/4/03, however applicant's amendments to the claims in the response filed 9/08/03 have rendered the new groups so distinct as to now require a new and different search for each invention. Further it is noted that the inventions are now unrelated since Group I is directed to the use of two different agents where the first agent inhibits extracellular matrix accumulation and the second degrades extracellular matrix proteins, for example. In group II the invention uses two different agents that have the capacity for increased inhibition of inhibiting extracellular matrix in combination. It is clear that these two different inventions as they stand after the amendments filed 9/08/03, now clearly lack a special technical feature, for the reasons of record and since they do not use the same combinations of compounds in the respective methods.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
